CONSTRUCTION NOTICE

Champion Cleaning Specialists, Inc. (CCSI), under contract with Hamilton County Water and Wastewater Treatment Authority (WWTA), will be conducting video assessments in your neighborhood as part of the Service Lateral Program (SLP) to systematically inspect, test, and repair defective and substandard sewer service lines within the WWTA collection system. The inspections will occur from the building to the street as a part of the directive to eliminate as many inflow and infiltration (I&I) sources as possible. The overall goal of the SLP is to reduce and eliminate sanitary sewer overflows, which can send debris and pathogens in our creeks, streams and waterways.

CCSI, WWTA's video contractor, will come into your area and video the mains and the laterals, pipes going to home or business, and determine if any repairs need to be performed. In most cases, work will take place from the streets without any need to enter your property. If your home or business is connected to a main, which is inaccessible from the street, and you have agreed to participate in the SLP, a camera will need to be inserted through a "cleanout" next to your home or business to inspect your lateral.

If entering your property is necessary:

1. A representative from B & B Plumbing and Heating, Inc., (B & B), WWTA's repair contractor, will contact the occupant regarding the need to locate or install the house cleanout.
2. Once a cleanout is ready, CCSI will contact the occupant to perform their inspection.

If the inspections determine that repairs are needed to your lateral and you have agreed to participate in this program, B & B Plumbing will return to complete that repair. They will make contact, once again, before doing so.

This work is being performed under contracts with WWTA and is done at no additional cost to the property owner. We are sorry for any inconvenience this may cause. We will also repair or restore to the best of our ability any landscaping that we disturb because of work.

If you have any questions or issues, please feel free to call Bill McClanahan with Champion Cleaning Specialists, Inc. at (513) 405-6529.
